Immersi XR Labs

Immersi XR Labs provides Virtual Reality Laboratories for schools, enabling students to perform Physics, Chemistry, Biology, and Mathematics experiments in an interactive 3D environment. It makes practical learning safe, engaging, and easy to understand.

VR Labs for Schools

- NCERT-aligned experiments
- Interactive hand-tracking technology
- Physics, Chemistry, Biology & Maths modules
- Safe and cost-effective practical learning
- Easy operation for teachers and students

What the School Gets:

- VR Headsets with hand tracking
- Class 6 to 12, pre-installed experiment library .
- Physics, Chemistry, Biology & Maths modules
- Teacher training and support
- Regular content updates
- Technical maintenance

Why Choose Us?

01 Curriculum Aligned Content

02 Better Student Engagement

03 Cost-Effective Solution

Key Features:

01 Realistic 3D experimentsl for your needs

02 Step-by-step guided simulations

03 Unlimited practice sessions

04 Engaging and interactive learning
